Sima Thapa

Full-Stack (MERN) Developer & Team Lead · Lalitpur, Nepal · +977-9704831889 · simathapa3333@gmail.com · github.com/SimaThapa · linkedin.com/in/sima-thapa-5888882a8

Professional Summary

Bachelor's-qualified IT engineer with 2 years of professional experience building web applications and REST APIs with the MERN stack and FastAPI, currently leading a development team at a software startup. Experienced in turning requirements into working features, writing database queries with validation and error handling, taking part in code reviews, fixing production defects and maintaining documentation. Looking to apply this experience to reliable public-service software at SDOC.

Technical Skills

- **Programming:** JavaScript (ES6+), Node.js, Python
- **API Development & Integration:** RESTful APIs with Express.js and FastAPI, third-party service integration, JSON, Postman
- **Frontend:** React, React Router, React Query, React Hook Form, Redux, Vite
- **Databases:** MongoDB, MySQL, PostgreSQL, MariaDB; query writing, schema design and optimization
- **Testing & Debugging:** Unit and integration testing, debugging, defect investigation and root-cause analysis
- **Version Control & Collaboration:** Git, GitHub (pull requests, code review), Jira, Agile team workflow
- **Cloud & Deployment:** AWS, Firebase, Vercel, npm
- **Design Tools:** Figma, Canva

Professional Experience

Team Lead & Full-Stack developer — Blackmoon Pvt. Ltd., Kusunti, Lalitpur · 2 years (to present)

- Lead a small development team: break approved requirements into tasks, give estimates, assign work and track progress in Jira.
- Implement features and REST APIs from approved requirements and technical designs on a real-world client project (private, under NDA).
- Write and optimize database queries and application logic with input validation and error handling.
- Review teammates' code through pull requests; address QA and security findings before release.
- Investigate bugs and production issues, apply reviewed fixes and keep compatibility with existing services.
- Prepare releases and verify deployments; maintain technical documentation and handover notes.

Projects

Client Project (Confidential) — MERN stack · Blackmoon Pvt. Ltd.

- Full-stack web application delivered for a private-sector client; source code is not public because of the client agreement.
- Built and integrated REST APIs, database models and React interfaces; covered core logic with tests.
- A walkthrough of the architecture and my contribution is available on request.

MCVTC Website (mcvtc.org.np) — [React / MERN] · Blackmoon Pvt. Ltd.

- Official website for Manmohan Cardiothoracic Vascular and Transplant Center, a specialized hospital in Nepal.
- Built [the responsive frontend, e.g. services, doctors, departments, notices, contact] and [APIs/admin panel for managing content].
- Delivered [deployment, SEO or performance work].

Billing & POS System — MERN stack · Blackmoon Pvt. Ltd. ·

- Web-based billing and point-of-sale application with an admin dashboard for managing [sales, products/inventory, customers and invoices].
- Built [REST APIs, database models and React interfaces] for [creating bills, calculating totals/tax/discounts, and sales reports].
- Deployed on [AWS], with [role-based login and input validation].

BBG – Basyal Bhojan Ghar (bbgfood.com) — MERN stack · Blackmoon Pvt. Ltd.
Online food ordering web application where customers browse the menu and place orders.

- Built [REST APIs, database models and React pages, e.g. menu, cart, orders] and handled [validation, error handling, deployment].

Inner Eye — React (client) + Node.js (server) · github.com/SimaThapa/inner-eye-client, github.com/SimaThapa/Inner-eye-server-side-

- Full-stack application with a separate frontend and API server.

Chat App — React, Node.js · github.com/SimaThapa/chat-app

- Chat application with a client (React) and server (Node.js) in one repository.
- [Real-time messaging library used, e.g. Socket.IO, and login/auth method.]

Education

Bachelor's Degree in Information Technology Engineering — [Pokhara University / Everest Engineering College, Lalitpur · [2022 – 2026]
